PROFESSIONAL SUMMARY

Full Stack Web Developer with experience in developing, and maintaining Frontend web applications. Proficient in technologies such as React (TypeScript) and Angular. Seeking an opportunity as a Full Stack Web Developer to contribute to the creation of scalable, high-quality solutions, leveraging Clean Code principles and best practices.

EXPERIENCE

Freelance Frontend Web Developer – Rethinq (Oct/2023 – Feb/2024) - Aracaju, SE, Brazil (Remote)

- Development and improvement of responsive web interfaces:
 - Maintained a virtual machine management system for a contact center company, including the creation of design system components and the implementation of new features. Utilized React (TypeScript), Bootstrap, and CSS to ensure a scalable and user-friendly solution.
 - Developed a module system for the DRSAC (Social, Environmental, and Climate Risk Report) solution, utilizing Angular, Bootstrap, Sass (BEM methodology), and the client's design system. DRSAC is a report designed for the Central Bank of Brazil, focused on collecting and analyzing data related to risks in credit operations and securities.

RELEVANT PROJECTS

- [Google Clone](#): Application that replicates the Google interface, making it possible to search for websites and images. Created using Next.js 14 and TailwindCSS. Repository: https://github.com/JOAO-LEE/google_clone
- [X Clone](#): Application that replicates the X (formerly Twitter) interface, making it possible to create publications with or without images, like and add comments. Created using Next.js 14, TailwindCSS and Firebase. Repository: https://github.com/JOAO-LEE/x_clone

EDUCATION

- Introduction to Programming with a Focus on Frontend Development & Cloud Practitioner – Proz Educação (Jun/2024 – Oct/2024)
- Full Stack Web Development – Trybe (Mar/2022 – Aug/2023)
